

The logo for the Space & Underwater Conference, featuring the letters 'S&UW' in a bold, white, sans-serif font. The letters are enclosed within a white, stylized circular outline that has a wavy, bottom edge. The background is a vibrant, futuristic space scene with a blue and purple color palette, featuring a large planet, various celestial bodies, and a complex network of glowing lines and nodes.

SPACE & UNDERWATER
CONFERENCE

ROME, DECEMBER 3RD 2024

BY  **CYBERSECURITYITALIA**

SPACE & UNDERWATER CONFERENCE

Space & Underwater is the title of the 1st edition of the International Conference dedicated to Space and Underwater, promoted and organized by Cybersecurity Italia magazine.

Is Space and critical infrastructure in the undersea dimension the new challenge among the great powers? Italy's leadership in Space and maritime policies is confirmed and consolidated. How can Italy play a leading role in the Space Economy and in the underwater dimension, together with strategic companies in both sectors and in partnership with international allies?

These are the two main questions of the event that will take place in Rome on **3rd December 2024** in Rome at the **Saloni di Rappresentanza della Caserma dei Carabinieri "Salvo D'Acquisto"**, viale di Tor di Quinto – Roma.

Thanks to the contribution of national and international experts, the Conference will offer a wide-ranging discussion on the international Aerospace and Underwater sectors, with technological and regulatory developments in the security of space and underwater infrastructures, which are becoming increasingly strategic for Countries in the current geopolitical context.

Space & Underwater will also be a rich in-depth look at the spread of technologies capable of operating in the cosmos and at great depths that see the world's main industrialized Countries as protagonists.

Today, the **Space Economy** is worth more than **509 billion dollars** worldwide, a frontier of growth, innovation and development to discover and where the services sector is driving investments, particularly in telecommunications, satellite navigation and Earth observation. Today, the demand for services alone is estimated at 309 billion dollars. Italy is playing an important role in this sector: we are the fifth Country in the world and the second in the European Union with investments of 4.6 billion.

In addition to the plenary session, there will be a series of thematic tables on 10 challenges: 

THEMATIC TABLES

Space & Underwater Conference will also feature a series of thematic tables on a variety of challenges, including:

1. How to strengthen cybersecurity in Space
2. Space economy, opportunities for Innovation and economic development
3. The role of Satellite: anti digital divide technology and more
4. Will commercial and military satellites be subject to "space wars" by hostile countries?
5. The underwater domain: regulation and economics
6. Establishment of the Undersea Dimension Agency
7. Up to 99% of the world's data flows are carried by submarine cables. How can they be made more cyber secure?
8. AI-Cyber-War: defense and response in partnership between strategic Aerospace, Defense and intelligence companies
9. The potential of 6G with a view to its arrival in 2030
10. 2030 Agenda for Sustainable Development in Space & Underwater

SPEAKERS

Speakers at **Space & Underwater** will include leading personalities from the world of Institutions (Parliament, Government, Regulatory Authorities), Armed Forces, Industry and the most relevant stakeholders from Italy and other European and non-EU countries.

PARTICIPANTS

Space & Underwater is a closed-door event. The conference will be held in the presence of a selected, ad personam invited audience and will also be broadcast via live streaming. It will only be possible to attend by invitation from the organizers.
